

## CONV-22 QR CODE GUIDELINES FOR POSTERS

Poster presenters who will be attending CONV-22 are required to put a QR code on their poster, linking to a presentation video describing their work. You can follow the steps below to generate a QR code:

- Upload your video to a website of your choice, provided that other people can access it as well.
- Copy the website URL.
- To generate the QR code, you can use a free, online generator (such as <https://www.qr-code-generator.com> shown in the figure below) to get your QR code.
- Add the QR code to your poster in a spot that is easy to scan for participants.
